2009	Keynote Speaker, American Head and Neck Surgery	
2009	Kelly Lecturer	Ohio State School of Medicine
2010	Guest Speaker, 2 nd International Congress on Surgical Education	Dublin, Ireland
2010	Keynote Speaker, Otolaryngology	University of North Carolina
2010	Krause Lecturer	University of Michigan
2010	Keynote Speaker, Society of Neurological Surgeons	New Haven, CT
2010	Guest Speaker, Innovations in Medical Education	New York Academy of Science/Macy Foundation, New York, NY
2010	Keynote Speaker, Opening Ceremony, American Academy of Otolaryngology-Head and Neck Surgery	Boston, MA
2011	Annual Forum, Institute for Health Care Improvement (IHI), Speaker	Orlando, FL
2012	Speaker, Joint Meeting BMJ/IHI	Paris, France
2012	Panelist, IHI National Forum	Orlando, FL
2013	Panelist, Triological Society	Scottsdale, AZ
2013	Arnold Lecturer	Case Western University, Cleveland, OH
2013	Graduation Speaker	University of Maryland, Department of Otolaryngology
2013	Guest Speaker	NY Surgical Society
2019	Panel chair, Triological Society	Coronado, CA
2019	Graduation Speaker, Otolaryngology	Albany Medical Center

Regional

Report of Clinical Activities and Innovations

Current Licensure and Certification:

1967 National Board of Medical Examiners
1968- Massachusetts
1972 American Board of Otolaryngology-Head & Neck Surgery
1985 American Board of Laser Surgery

Practice Activities:

2009- Pediatric Massachusetts Eye & Ear
Otolaryngology Infirmery

Clinical Innovations:

First use of Carbon Dioxide laser in pediatric patients (1974)

First to do clinical trial in the use of interferon in pediatric airway papillomatosis

Developed pediatric laryngoscopes for laser surgery

Developed pediatric instruments for laryngology

Report of Teaching and Education Innovations

Introduced surgical simulation as a teaching tool at the American College of Surgeons and held first national joint meeting to introduce the concept to surgical training (2001)

Introduced the Chief of Service teaching system at Boston Children's Hospital
(*JAMA Otolaryngol/HeadNeckSurg.2014;140(9):809-814*)

Report of Technological and Other Scientific Innovations

Early designer of pediatric binocular laryngoscopes

First use of Carbon Dioxide laser in pediatric patients (1974)

First to do clinical trial in the use of interferon in pediatric airway papillomatosis

Developed pediatric laryngoscopes for laser surgery

Developed pediatric instruments for laryngology

Report of Education of Patients and Service to the Community

No presentations below were sponsored by 3rd parties/outside entities

Those presentations below sponsored by outside entities are so noted and the sponsor(s) is (are) identified.

Activities

Served as Developmental Disabilities Chair for Commonwealth of Massachusetts

Served as Vice Chair of Massachusetts Board of Registration in Medicine

Currently serve as member of Massachusetts Medical-Legal Commission (oversight of Medical Examiner's Office)

Narrative Report

Gerald B. Healy, MD, FACS, FRCSEng (h), FRCSIre (h)

I arrived at Childrens Hospital Boston in 1976 to oversee a Department that had one half time surgeon, a half time secretary, one office and two examining rooms. Over the ensuing 35 years the Department grew to 15 full time physicians, 6 nurses, 6 physician assistants and 170 employees. In addition, we added 25,000 square feet of clinical space in three locations and a fully NIH funded research laboratory. We introduced innovations in airway surgery, laser surgery, surgical augmentation for hearing impaired

children and pediatric head & neck cancer surgery. These advances positioned the Department as a world leader.

From an academic standpoint we became the major pediatric training location for all three of Boston's Otolaryngology training programs (Harvard, BU and Tufts). In addition, I began a Pediatric Otolaryngology Fellowship program (the second in the US) in 1977 which by 2009 was considered the premier program in the world. In 1996 I was asked to serve as Surgeon-in-chief at Childrens Hospital. The only otolaryngologist to ever serve in that role in the 150 year history of the Hospital

Externally, between 1986 and 2006 I served as a member of the Board of Directors of the American Board of Otolaryngology and was its Executive Vice President from 1998 to 2006. The first pediatric otolaryngologist to serve as a Director of the Board. Between 1980 and 1996, I was elected President of several of the leading societies in my specialty as well as Chair of the Board of Regents of the American College of Surgeons (ACS) and in 2007 was elected President of the College. The only otolaryngologist in the 106-year history of the ACS ever so honored. In 2008 I was given Honorary Fellowships in the Royal College of Surgeons in England and the Royal College of Surgeons of Ireland. The first pediatric otolaryngologist so honored.

Since stepping down from my role at Boston Childrens Hospital, I have spent most of my teaching time at the Massachusetts Eye and Ear Infirmary running training clinics for residents, fellows and students. This program focuses on teaching trainees how to take a proper history and complete a thorough head and neck examination. They are then mentored in decision making around outlining a differential diagnosis, and selecting a proper treatment plan. Communication with the patient and family is stressed. This program also stresses logical planning and continuity of care which the trainees find most rewarding in the frenzy of current practice.
